In addition to the monthly grant, a traveling grant of max EUR 423 will be paid to Bachelor students completing their internship abroad. The travel grant will be paid directly to the student with the internship grant and you do not have to apply for it separately. Please note that internships in category 1 are in general part of the Erasmus+ programme.

How is the grant amount calculated?

For internships, you will receive a monthly grant for a maximum of three months and a daily grant for the remaining days should your internship not last three full calendar months. The daily grant is 1/30 of the monthly grant. In practice, this means that the grant will cover all internship days that do not exceed a three-month period.

When calculating the grant, one month means the respective calendar month in question, i.e. 28 - 31 days depending on the month. A month is defined as follows: day of the month N - day of the next month N-1.
