Why study with us?

- Add an exciting Nordic perspective to your business studies!
- Explore two top Nordic business schools and their perspectives on these current topics.
- Learn from other students from around the world in an interactive global classroom.
- Social and cultural activities will be offered alongside the academic programme.

The Darkness of Business (3 ECTS), Lund

This module will discuss that management thinking and doing might not be part of the solution of the problems facing us today (e.g. climate crisis, unequal distribution of wealth, erosion of collective narratives and so forth) but rather one of the main problems calling for urgent attention.

Sustainability and Innovation of Money and Banking (3 ECTS), Helsinki

Sustainable finance and high-quality corporate governance practices are essential tools in fighting the climate change and in creating more sustainable economies. This module focuses on the role of financial innovations in facilitating the energy transition and other environment-related global challenges.
