

What counts as “studies relevant to the programme”?

Are you interested in applying to one of Hanken’s master’s degree programmes, but are unsure of what can be considered 30 ECTS relevant studies?

Below are tables containing all courses that are included in the different programmes for the curriculum 2022-23. Hanken does not evaluate applicants’ completed studies in advance, but these course lists might give some insight into the knowledge prerequisites required for studying at Hanken.

You can find further information regarding each course (such as course descriptions, teaching goals or course literature) by accessing Sisu and looking up the course you are interested in (either using the course name or the course code): <https://sisu.hanken.fi/student/search>

Red courses are mandatory for the programme. Blue courses are partially elective. Yellow courses are internships. Green courses are further electives. Each programme structure should consist of at least 90 ECTS of studies in the major subject.

Please note: *These course lists are primarily used to give some indication as to what topics Hanken’s master’s programme covers. This is not a detailed breakdown of the exact curriculum per study year. The lists only contain the barebone structures of mandatory and elective courses.*

Accounting

<i>Course code</i>	<i>Course name</i>	<i>ECTS</i>
12025	Financial Statement Analysis and Valuation	5
9994	Global Competence: Data analytics	2
